

## TECHNICAL DATA

Components	Up to 18
Valves' Diameter	DN14
Dispensing Accuracy	1 g standard ( 0.2 optional )
Average Dispensing Time	4.5 minutes for 20 kg batch

**Built-In Mixer**  
with auto cleaning feature

# CUBICO

The InkMaker CUBICO is an automatic dispensing system, conceived to offer an affordable and extremely compact solution for users with small / moderate output requirements.

Fully automatic and easy to operate, it requires minimal input. The operator can produce the required formulas in few simple steps and with perfect accuracy.

The Cubico can accommodate a maximum of 18 x DN14, high precision, multi stage dispensing valves.

The Cubico can handle water based, solvent-based and UV products (Ex - ATEX or IEC-EX - version)

Extremely compact and with a smallest footprint in the market.

The system management and automation are run by InkMaker Maestro software.

Scale tare is automatically set by the computer. A weigh summary sheet is printed for each batch showing the exact batch information.

The user can display or print several reports, including: dispensed formulas, job costing, production history, stock availability, etc.

Production traceability is simplified with the use of a bar-code system c/w bar-code reader and bar-code label printer.

Pneumatic pumps deliver the base components to the dispensing head.

Components can be stocked in pails, drums and IBC or in other type of containers of different size and capacity.

## ADVANTAGES

*Extremely easy to operate with user friendly interface which can be linked with the most common ERP and MRP programmes*

*Easy interface with any brand of spectrophotometer*

*Consistent formula reproduction insuring correct product repeatability*

*Production of the right quantity whenever needed*

*Dispensing parameter self-adjustment ensures optimal accuracy*

*Major stock reduction and rationalisation*

*Seamless stock management with stock information, graphic components' stock display, stock auditing and batch cost evaluation*

*Optimized recycle-management*

*Elimination of wastage*

*Complete tracking of operation and ISO compliance traceability*

*Password protected formula database and automatic back-up to prevent data loss*

*Reports on production statistics with over 100 reports for KPI assessment*

*Production planning*

*Easy maintenance*

*Increased free space in the factory*

*Improved workplace cleanliness, tidiness and safety*

*Smallest Footprint in the market for a fully automatic dispenser*
