IM GROUP

Recently rebranded in Italy in 2021, IM GROUP (Formerly Inkmaker Group) is a global technology leader focused on reliability. It is the holding brand of: *Inkmaker*, *Rexson*, *Vale-tech*, *Swesa*, *Teko* and *Tecnopails*. With its combined strength the group offers total process-engineering solutions within the industries of paint, coatings, ink, speciality-chemicals, adhesives, corrugated packaging, pharma, food, cosmetic, textiles and more.

The group offers design and manufacturing through to complete engineering studies and turnkey solutions for:

- Customised plant engineering and software design
- Highly accurate automated dispensing
- Process equipment from bulk handling to filling lines
- POS equipment
- And other related services

Which it provides through:

- Cloud connectivity
- Industry 4.0
- Ink transfer systems
- Increased safety and reduction of environmental impact

The group's proprietary software and systems, manufactured in 3 continents, guarantee highly accurate colours consistently, precisely and instantly. IM GROUP, with its brands, operates with its own staff and offices in over 15 countries over 5 continents.

On 18 June, 2021, the group was recognised as one of the "Top 10 chemical tech solution providers in Europe 2021" by Manufacturing Technology Insights, which was announced in over 30 of the world's most prominent industry media.

IM GROUP is headquartered in San Gillio, northern Italy.

SUSTAINABILITY & CSR

IM GROUP is committed to ensuring sustainable ethical principles and a safe work environment.

We are partnering international consultants, to further our Corporate Social Responsibility (CSR) and sustainability practices.

The project defines a plan outlining economic, social and environmental objectives, with corrective actions to be taken, in line with our company strategy.

Our aim is to reduce the current resources we use, and the waste that we create, to conserve resources and help reduce environmental pollution.
